

Financial Services Regulatory Commission
Division of Gaming

MEMORANDUM

TO: All Gaming Operators
FROM: Ms. Kaye McDonald, *Director of Gaming*
DATE: July 3, 2006
SUBJECT: **Amendment to Interactive Gaming License**

This memo serves to advise that the Interactive Gaming License shall be amended as prescribed under the Interactive Gaming and Interactive Wagering Regulations, No. 12 of 1994.

Accordingly, the License shall state:

“The above mentioned Licensee is authorized to conduct and operate the following Games:”

Interactive Games of Chance or Mixed Chance and Skill

As a result, the Division of Gaming has developed a Games Management System (GMS) allowing all licensees to register all games available for play. The (GMS) is a replica of our Storefront Management System, therefore, you may access your account using the same username and password for your storefront admission. As such, you will have the option of adding, editing, deleting, and viewing the list of games.

Our office remains available to address any issues or questions that may arise.

Please be guided accordingly.
